

# MSGP MONITORING REQUIREMENTS

U.S. ENVIRONMENTAL PROTECTION AGENCY  
(EPA)  
NATIONAL POLLUTANT DISCHARGE ELIMINATION  
SYSTEM (NPDES)  
EPA NOI Processing Center

Company: CITY OF PORTSMOUTH  
ATTN: DAVID S ALLEN  
1 Junkins Avenue  
Portsmouth, NH 03801

Facility: PEASE WASTEWATER  
TREATMENT PLANT  
135 Corporate Drive  
Portsmouth, NH 03801

Based on the information you provided in your NOI, you are subject to monitoring and subsequent reporting requirements. A summary of your monitoring requirements are provided below. Remember to review Part 9 of the MSGP 2007 to determine if you have additional state or tribal requirements ([www.epa.gov/npdes/msgp](http://www.epa.gov/npdes/msgp)). You may view and download monitoring guidance, including A Stormwater Sampling Guide for Industrial Facilities, at <http://www.epa.gov/npdes/msgp>. You may also now submit your monitoring results using the EPA's eReporting system at [http://cdx.epa.gov/epa\\_home.asp](http://cdx.epa.gov/epa_home.asp).

You are also required to submit an annual report to EPA (see Part 7.2 of the MSGP). This report will contain the findings from your comprehensive site inspection, including a discussion of any corrective actions required during the reporting period. You will also need to submit an Exceedance Report to EPA if follow-up monitoring exceeds your effluent limitation guideline-based effluent limits (see Part 7.3), as well as any additional reports required under this permit (see Part 7.4).

## Sector: T-Treatment Works
